A. SIGNIFICANT ITEM

In dealing with candidates for this Program, we feel it important to be as accurate as possible within security limits in telling them what they can expect. In furtherance of this policy, C/JOTP has suggested to the Office of Personnel that we be allowed to inform candidates that in the medical examination, which is normally considered by the candidate to be a physical examination, there will be included a psychiatric examination. [] has discussed this question with Dr. Tietjen on a couple of occasions and reports his expectation that an appropriate statement which can be given to candidates will be worked out.
